LEGEND - MISC.:

INSTALLATION INSTRUCTIONS

Run HDMI Cable — Run cable through the provided 1.5" conduit between the WELLBEATS Interactive iPad and TV.

Install iPad — Use the wall or floor stand mount to secure the WELLBEATS Interactive iPad into place. Connect the sender side of the iPad HDMI Cable to the pre-installed HDMI Breakout Cable.

Connect Internet — Connect the customer provided Cat 6 internet cable to the RJ45 port on the WellBeats iPad Lightning/HDMI/Ethernet adaptor.

Install TV Mount — Install the TV mount and hang the TV at the customer requested location.

Connect HDMI to TV — Connect the HDMI cable to the TV's HDMI port 1

Plug-in Touchscreen & TV — Connect iPad power cable to power outlet behind iPad Lightning/HDMI/Ethernet adapter and plug adapter into iPad. Using the provided TV power cable, plug the TV into the outlet.

Select HDMI Input — Turn on the TV and select the HDMI input that's connected to the WELLBEATS Interactive Touchscreen. If using a WELLBEATS provided TV, connect the HDMI into port 1.

On Screen Instructions — A series of automated steps will start once the WELLBEATS Interactive Touchscreen is powered on with an internet connection. Once the steps are complete, the WELLBEATS app will launch. Please call WELLBEATS Technical Support at 855-520-7502 if you need set-up assistance.

Test a Class — Using the WELLBEATS Interactive Touchscreen, select a class and press Play Class. The same image should display on both the WELLBEATS Interactive Touchscreen and TV.

APPENDIX A - HARDWARE SPECIFICATIONS

WELLBEATS iPad *Provided by Camden IT
Width: 20.6"
Height: 12.8"
Depth: 1.8"
Weight: 12 lbs

Tilt Touchscreen Mount *Provided by Camden IT
Width: 12.78"
Height: 9.68"
Depth: 4.60"

70" TV *Provided by LV Vendor
Width: 61.6"
Height: 35.9"
Depth: 3.5"
Weight: 75 lbs
*Also available in 60", 80" or 90" options

TV Mount *Provided by LV Vendor
Width: 28.5"
Height: 17.5"
Depth: 1.9"

Bose® 22" Soundbar *Provided by LV Vendor
Width: 21.6"
Height: 2.6"
Depth: 3.73"
Weight: 3.73 lbs

KEY REQUIREMENTS

HARDWIRED INTERNET REQUIREMENT: The WELLBEATS Interactive iPad needs continuous access to the internet. Without it, operating stability, new content and technical support cannot be provided. A WIFI connection does NOT provide the necessary stability to the system. We want your system to run at its prime and that requires a hardwired internet line.

MAKE SURE THE CABLES WILL FIT: The system components are connected via cabling. You will need 1.5" conduit with pull string between the touchscreen location and television. Conduit smaller than 1.5" poses significant difficulties to successfully connecting the necessary cables.

POWER IN THE RIGHT PLACES: Electrical outlets will need to be placed at specific heights to conceal cables and cords. Use the mounting diagram (Appendix B) to identify where to best place outlets and conduit openings to make room for the mounts.

WELLBEATS Touchscreen Requirements

Electrical	Touchscreen Location	☑ 1 duplex electrical outlet Height: 45" above finished floor *Optional Floor Stand* Use standard floor outlet height for electric and conduit
	TV Location	☑ 1 duplex electrical outlet Height: 72" above the finished floor
Conduit	Between Touchscreen & TV Location	☑ 1.5" conduit between the WELLBEATS Touchscreen & TV
Internet	Touchscreen	☑ Terminated Cat6 line ☑ Must be active at time of install

MIRROR, MIRROR ON THE WALL PLEASE MAKE ROOM FOR THE WELLBEATS INSTALL: The WELLBEATS iPad and TV cannot be mounted on mirrors or other hard, decorative surfaces. Please reference next page to determine the necessary cut-outs before mirror installation.

CONTENT SUBSCRIPTION: WELLBEATS content and technical support require an active subscription. Subscription packages can be paid on either a monthly or annual basis. Check out www.wellbeats.com/packages to explore classes and options.
