- *Button events enable tap, double-tap, and hold functionality*
- *Customizable backlit button engraving*
- *White LED feedback indicators*
- *Built-in LED flashing and bargraph logic*
- *Auto-dimmable backlight and LED intensity*
- *Ambient light sensor*
- *Dual digital/analog input ports for external sensors*
- *Quick and easy installation*
- *Cresnet® wired communications*

The Cameo® Standard Mount Keypad (C2N-CBD-P) from Crestron® presents a fresh, innovative concept in keypad design, featuring a highly configurable one-gang wall mount form factor. The C2N-CBD-P easily installs alongside other low-voltage in-wall devices to deliver an advanced custom keypad control solution as part of a complete Crestron control system.

Customizable Buttons

Simple yet highly customizable, a single Cameo Keypad can be configured easily by the installer to provide from two to eight buttons. Each keypad is furnished with an assortment of button caps in four different sizes to support a variety of physical layouts. Button caps may also be ordered with custom backlit laser engraving[1] to clearly designate each button's function.

Through programming, each button can be configured for up to three separate functions. In addition, shift key functionality is possible, allowing any button to be held while pressing another to provide further customization for the keypad.

Auto-dimming Backlight

High-quality backlit laser engraving[1] provides customizable button text that's easy to read under any lighting condition. A built-in light sensor controls the backlight intensity automatically to achieve crisp, legible text in both darkened and fully lit rooms.

Enhanced LED Feedback

Six pinhead-sized white LEDs provide fully customizable feedback to show the status of each button. Ten flash patterns are built in, enabling flashing LED feedback with simplified programming and reduced traffic on the Cresnet® network. Onboard bar graph logic allows the feedback LEDs to function as a 6-segment bar graph display, providing clear level indication when adjusting lighting and audio settings. Auto-dimming LED intensity ensures optimal visibility under varying lighting conditions.

due to dishwasher or moisture, actual colors may vary from cards at this stage onscreen.

MP-WP152

Media Presentation Wall Plate – HDMI®

- *Provides a single gold-plated HDMI® connection*
- *Affords Crestron® guaranteed end-to-end system performance*
- *Supports 4K60 4:2:0 and 4K30 4:4:4 digital video*
- *10.2 Gbps TMDS bandwidth*
- *Supports 7.1 digital surround sound audio*
- *1-gang electrical box mountable[1]*
- *Gangable for custom wall, lectern, and rack mount applications*
- *Available in white, black, or almond*
- *Decorator-style faceplate available separately*

Media Presentation Wall Plates complete the total Crestron® package, ensuring end-to-end Crestron quality for every installation. A range of wall plates is offered to support all types of analog and digital video, audio, and control signals.

The MP-WP152 features one (1) Type A HDMI connector. A bulkhead type feed-through connector is used, which provides a female HDMI connection at the rear of the wall plate to facilitate installation using a standard HDMI cable. The MP-WP152 supports HD and UHD video signals with resolutions up to 4K60 4:2:0 and 4K30 4:4:4.

Faceplate sold separately

Notes:

1. Electrical box not included. A 3-1/2" deep box or plaster ring is recommended. Some cables and connectors may necessitate additional mounting depth.
